OBJECTIVE

Motivated Computer Science undergraduate specializing in AI and Machine Learning, with hands-on experience building intelligent systems using Python and LLMs. Seeking to apply strong problem-solving skills to impactful, real-world projects.

EDUCATION

Shri Vishnu Engineering College for Women Bhimavaram, India
Bachelor of Technology in CSE (Artificial Intelligence and Machine Learning) 2023 – 2027
• CGPA: 9.01

PROJECTS

Multi-Model AI Agent for Automated Health Diagnostics 2026

Tech Stack: Python, Streamlit, Groq, Supabase

- Built an AI agent that extracts, interprets, and summarizes blood report data using multi-model LLM analysis.
- Designed a data extraction pipeline using PDF parsing and OCR to process reports across varied lab formats.
- Implemented parameter interpretation and risk-pattern analysis using Groq-hosted LLMs with structured JSON outputs.
- Developed a Streamlit interface enabling users to upload reports and view personalized health recommendations.
- Integrated Supabase for user authentication and persistent storage of report history.

Text Summarizer 2026

Tech Stack: Python, NLP, Transformers, PyTorch

- Developed an AI-based text summarization system using pre-trained transformer models.
- Implemented abstractive summarization to generate concise summaries from large textual data.
- Utilized PEGASUS model for sequence-to-sequence natural language processing.
- Improved readability by converting lengthy documents into meaningful insights.

TECHNICAL SKILLS

Coursework	Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks
Programming Languages	Java, Python, C
Web Development	HTML, CSS, JavaScript
Data Handling	NumPy, Pandas, Seaborn
Machine Learning	Matplotlib, TensorFlow (Basics), PyTorch, NLP, Transformers
Frameworks & Platforms	Streamlit, Groq, Supabase
Tools/Environments	Git, VS Code, PyCharm
Coding Profiles	LeetCode — HackerRank

ACHIEVEMENTS

- Selected to compete in the college-level Smart India Hackathon.
- Secured third place in JNTUK Central Zone-Inter Collegiate Tournament in 2024 and 2026.

POSITIONS OF RESPONSIBILITY

Coordinator, Mathelets Club, SVECW Organized events and engaged students in mathematics activities.	Captain, Volleyball Team, SVECW Coordinated team activities and represented the college.
